REPLY COMMENTS
OF
ONSTAR CORPORATION

OnStar Corporation hereby submits these reply comments in response to the Commission's Public Notice released February 26, 2002 in the above captioned matters.

In its initial comments, OnStar expressed concern that a non-revenue based USF assessment system such as a connection-based system creates equity concerns for low price, low call volume services and prepaid services such as OnStar.

OnStar notes that SBC and BellSouth have filed an alternative proposal. OnStar believes that proposal generates many of the same equity concerns discussed in OnStar's Comments filed in this proceeding.

OnStar continues to believe that a revenue-based system with safe harbors offers the approach with the fewest equity concerns.

OnStar appreciates the Commission's consideration of these issues as it evaluates the USF issue.

Respectively submitted,
